

Ceiling and Wall Inspection Report Card

This Report Card is designed to help you understand the overall sanitary condition of your back of house ceiling and walls. It will help you focus on certain problem areas and what you should be looking for. In short, you will know the answer to the question: Are my back of house ceiling and walls inspection ready?

Score yourself from 0 to 5 for each statement below. 0 means this particular area requires considerable work and 5 means that you have no cleaning needs and have a consistent plan to maintain that area.

Ceilings	0-5
The ceiling tile throughout the back of house is a consistent white color.	
The grid work throughout the back of house is a consistent color.	
There is no yellowing of ceiling tile around hoods.	
There is no yellowing of ceiling tile above cooking appliances w/o hoods. Ex. Toasters, Ovens	
There is no dirt or carbon buildup in and around vents.	
There are no stains from food splatters on the ceiling tile.	
There is a plan in place to maintain our ceiling tile in a clean and sanitized state.	
Over 28 (Excellent); 23 to 27 (Fair); Under 22 (Poor)	SUB TOTAL
Walls	0-5
The walls throughout the back of house are a consistent white color.	
There is no yellowing of walls in cooking areas.	
There is no dust or dirt buildup on walls close to vents.	
There is no dirt or mildew on walls in dish room underneath dishwasher.	
There is no dirt or mildew on walls underneath sinks.	
There is no dirt buildup on walls along the baseboards.	
There is a plan in place to maintain our walls in a clean and sanitized state.	
Over 28 (Excellent); 23 to 27 (Fair); Under 22 (Poor)	SUB TOTAL
TOTAL (Add Both Totals)	

Did You Make the Grade?

If your total score is 56 or higher, congratulations! You either have new ceiling tile and walls or have a plan in place that addresses these areas.

If you scored between 46 and 55, you may want to think about putting a plan in place to address your problem areas if you don't already have one.

With an overall score of 45 or less, you are having problems maintaining your ceiling tile and (or) walls and may not be ready for your next inspection. The good news is that we can help you improve on the cleanliness and sanitation of your ceiling tile and increase the scores in the areas above.
